Our doctors have been freeing people from pain for many years. As Chiropractors with years of experience, our doctors are committed to promoting optimal health and the well-being of our patients. Our doctors utilize primarily Diversified, Gonstad and Thompson techniques, which are considered full body spine. These are scientifically proven techniques that have been tested over several generations.

Further, UNCC chiropractors use a "whole person approach". This approach to wellness means looking for underlying causes of any disturbance or disruption (which may or may not be causing symptoms at the time) and make whatever interventions and lifestyle adjustments that would optimize the conditions for normal function. Using this unique approach, our doctors are able to help you to accelerate and/or maintain your journey to good health.

If you are looking for chiropractors in the Philippines --Makati, Manila, Pasig, Quezon City or even Angeles City, Pampanga Province, Subic and the surrounding Olongapo City area, we have well trained and experienced doctors to serve you.
