

GERMAN ALLOY STEEL INCORPORATED

In 1971, **ENGR. BIENVENIDO H. SEMERA**, a Mechanical Engineer by profession, young and enterprising, made his first debut into the steel industry when he joined the well organized, technically trained and reputable team of sales engineers of Special Steel Products, Inc., the then newly appointed Philippine Distributor of BOHLER Steels of Austria (Next to MESMA, the first to introduce this product in the country), for the sales and promotions of this product. This was his first single step on this venture that will prove to be a giant leap in the years to come.

During the first quarter of 1989, some of his colleagues decided to form a similar entity to introduce and promote the sales of THYSSEN Steel, from West Germany and Eng'r. BIENVENIDO H. SEMERA was invited to spearhead the operations and sales of this outfit. Equipped with years of experience, technical know how plus the knowledge that he obtained from various training and seminars here and abroad, he decided to accept this challenging role and under his stewardship, this new company grew. Confident that he can now push through with his dreams and hopes of putting up his own company, he waited patiently for the right time and opportunity.

Finally, the year after the millennium (Year 2001) Engr. BIENVENIDO H. SEMERA unveiled the fulfillment of his dreams and hopes. As a Sole Proprietor, he founded "**GERMAN ALLOY STEEL ENTERPRISES**" and started its operations on January 31, 2001. On May 29, 2003, the Business was INCORPORATED with **SEC Reg. NO. CS200311747** and became popularly as "**GERMAN ALLOY STEEL INCORPORATED**".

The company now employs more or less twenty (20) personnel composed of Managers, Supervisors, Skilled Workers and Rank & File Employees. Having **STAHLTEC METALLHANDELS GMBH, GERUK GMBH** as the main suppliers of steels from West Germany, the company is presently catering high grade tool steels to various industries in our country, from Industrial to Agricultural.

It is the company's goals and aims to create employment, render technical assistance to manufacturing companies, contribute to the progress of our country, and lastly to realize a reasonable profit for its Incorporators and Employees as well.

To meet the needs of our clients / customers for the right treatment of steels especially Hardening, Tempering and Annealing, another company was formed: **INDUSTRIAL HEATING CORPORATION**. The services offered is a must for "Tool and Die" longer life. **IHC** or **INDUSTRIAL HEATING CORPORATION** was registered under **SEC Reg. NO. A200115104**.

Due to the ever increasing demands of our customers / clients another company was created to help them meet their needs in General Machining and Metal Fabrication services, and this company was registered under the name of **STAHLWERK AND TOOLINGS INCORPORATED** under **SEC Reg. NO. CS200415020**.

Our company established a brand which is acceptable in the high grade steel industry, the **BOHLER STEELS** of **Austria**. In August 03, 2018, Special Steel Products Co., Inc. formally appointed German Alloy Steel Incorporated to be the certified exclusive dealer of Bohler Steels of Austria here in the Philippines.

COMPANY PROFILE

COMPANY NAME : GERMAN ALLOY STEEL INCORPORATED

: 206 C. Cordero St. Between 6th & 7th Avenue,
Grace Park, Caloocan City, Philippines

: (02) 366-9774 / (02) 367-9708

: (02) 367-1461

: gasi.ihc.sti01@gmail.com

: www.germanalloysteel.com

REGISTRATION : SECURITY AND EXCHANGE COMMISSION
No. CS200311747 dated MAY 29, 2003

PRINCIPAL ACTIVITY : Distributor of various grades of tool steel,
aluminum alloy and other allied products.

BRAND NAME : GERMAN ALLOY

COUNTRY OF ORIGIN : GERMANY

BANKERS : Banco De Oro, Union Bank, Sterling Bank

PRINCIPAL OFFICERS

Bienvenido H. Semera
President & Gen. Manager

Oscar P. Arriola
Vice President

Anabelle B. Rivera
VP – Finance/Corporate Secretary

Clemente G. Aglibot Jr.
Operations Manager

James Anthony G. Macazo
Sales Manager

Efrelyn R. Basilio
Credit & Collection Manager

Lamberto I. Martinez Jr.
Operations Supervisor

GERMAN ALLOY STEEL INC.

FACILITIES PROFILE

MACHINES

Bandsaw Machines

1. Everising VBS0707-30 (700 x 700 x 3,000mm)
2. Everising S-300HB
3. Amada H600
4. Daito – ST 4060P
5. Amada 300
6. Daito 250
7. KM 600

HANDLING FACILITIES

- A. Hitachi Electric Hoist- 1 ton capacity
- B. Hitachi Electric Hoist- 5 ton capacity
- C. TCM Forklift 3.5 ton capacity
- D. JAC Forklift Diesel CPCD – 3.0 ton capacity

DELIVERY UNITS

- A. Fuso Canter Dropside – 3.5 Tonner
- B. Mitsubishi Canter Dropside
- C. KIA Close Van K2700
- D. HINO Turbo charge diesel engine truck

INDUSTRIAL HEATING INCORPORATED

EQUIPMENTS

A. 1300 degrees Celcius Electric Furnace, Industrial Heating PTY LTD – Australia

Dimensions:

Height: 360 mm

Width: 410 mm

Length: 650 mm

Load Capacity:

150 kgs to 200 kgs. (Max)

B. 1100 degrees Celcius Electric Furnace, Industrial Heating PTY LTD – Australia

Dimensions:

Height: 360 mm

Width: 410 mm

Length: 650 mm

Load Capacity:

150 kgs to 200 kgs. (Max)

C. 1300 degrees Celcius Electric Furnace, Nabertherm GmbH- Germany

Dimensions:

Height: 490 mm

Width: 970mm

Length: 1,280 mm

Load Capacity:

600 kgs. (Max)

D. Stationary Rockwell C Hardness Tester

E. 2 units Portable Rockwell C Hardness Tester

F. Mitutoyo bench type hardness tester model 963-102R

G. Portable Spark Testing Grinder

STAHLWERK AND TOOLINGS INC.

EQUIPMENTS and MACHINERIES

- A. Lathe Machine Takisawa
- B. Lathe Machine Colchester
- C. Ikegai – Lathe Machine
- D. Milling Machine Hartford
- E. Universal Milling Chuck
- F. Fuji Surface Grinder (650mm Cap.)
- G. Surface Grinder (YSG-600)
- H. Radial Drill Press Yoshida
- I. Vertical Bandsaw
- J. Pedestal Grinder
- K. Portable Grinder
- L. Die Grinder
